Donald E. Holland, Deputy Director

Dec. 1966

FOREWORD

This booklet is designed to acquaint Ontario manufacturers with the many opportunities that exist for marketing their products in the United States.

In 1965 almost 23 per cent of all U.S. imports were Canadian. From Canada's point of view, the U.S. was the market for 57 per cent of total exports. About 53 per cent of U.S. imports were accounted for by fully manufactured goods. Of this amount, Canadian products represented 22 per cent. Fully manufactured goods represented 51 per cent of total Canadian exports to the U.S.

The information contained in this booklet is divided into two parts.

The first part contains selected U.S. imports taken from reports of the U.S. Bureau of the Census for the years 1964 and 1965. Totals for the commodity sections and groups are shown, but the sub-classes were chosen arbitrarily on the bases of importance within the group and/or whether Canada has a significant share. We hope to be of assistance by showing that a market does exist and by developing beneficial contacts and export programs for the interested manufacturer.

In the second part, Canadian exports to the U.S. of "End Products, Inedible", selected from reports of the Dominion Bureau of Statistics, are shown. Because of space limitations and relative importance, many commodities are not included but information on them may be obtained from the Trade and Industry Branch, Ontario Department of Economics and Development.

INDEX

Part I	Page
Major U.S. Imports and U.S. Imports From Canada	3
Food and Live Animals	3
Beverages and Tobacco	5
Crude Materials, Inedible, except Fuels	5
Mineral Fuels, Lubricants and Related Materials	8
Animal and Vegetable Oils and Fats	9
Chemicals	9
Manufactured Goods Classified Chiefly by Material	10
Machinery and Transport Equipment	17
Miscellaneous Manufactured Articles	21
Part II	
Major Canadian Exports to the U.S. of End Products, Inedible	24

EXPLANATORY NOTES:
